MAINTENANCE **U** CAN RELY ON

Increase On-Time Delivery

Breakdowns are detrimental to any company that delivers goods and services to its customers. Repair costs are expensive. Driver wages are wasted. Late deliveries can result in lost sales or customers. Our goal is to build performance engineered trucks to maximize uptime with exceptional maintenance and service support to prevent downtime.

Improve Driver Retention

Good drivers are challenging to find and more difficult to keep. When drivers are not being provided safe and reliable trucks they may look elsewhere for companies that do. We work closely with your drivers to ensure that their truck maintenance is handled quickly and efficiently, so they feel safe and secure behind the wheel of any of your trucks.

Lower Operating Costs

When operating one truck or a whole fleet, your company has to put valuable manpower and resources into acquiring, maintaining, and selling them at the end of their life cycle. Suppose U Drive can handle all of this for you - which frees up your time and energy to focus on your core business.

Minimize Legal Exposure

With increases in government regulation it is difficult to keep up with the changing laws and requirements. We are committed to handling your D.O.T. requirements, keeping your licensing current, preparing & filing of taxes. We are also geared towards protecting you from environmental liability through our NationalLease "Green Shop" certification.

Lessen Carbon Footprint

With the negative effects of pollution and the depletion of mother earth's natural resources, it can be challenging to find a maintenance company that minimizes its operating costs while protecting the environment. At Suppose U Drive we utilize paperless invoicing, apply the three "R's" for sustainability (Reduce, Recycle, Reuse), and are Green Shop Certified.

Boost Company Image

Trucks act as rolling billboards, which can provide brand recognition and attract customers. Suppose U Drive can help your company design and install its logo while keeping it clean through routine washings so that everyone who sees it can appreciate your company's sparkling image.

Our flexible maintenance plans include:

- Scheduled preventive and non-scheduled maintenance service
- 24/7 Emergency Road Service
- ASE Certified Technicians
- Oil & Lubricants
- Towing, Tires & Tire Service
- Mobile Service for larger fleets
- Discounted Diesel fuel program
- Access to NationalLease Network of Service Facilities
